Good morning, Donn.

Let me know when you have a WRF form for us—if you need one, let me know and I can bring one to you.

We would like copies of the original community involvement plan that you have for Akwood, and any other examples that you have that might be useful. I can pick them up from you now, or when the WRF is ready (or make a copy of what you have and return the original to you).

I'll also check SDMS and online for recent community relations plan examples.

Kim I need to task Toeroek to begin developing a community involvement plan for the Arkwood NPL site in AR. per a Mgmt request. These are pretty generic documents for all sites, so you can use the basic format. I have the original one (90's) that you all can update to the current time. And you can look in the files for another site's if you wish. You can also use the site summary status for wording on the (new)evaluation for dioxin this Spring. Lastly you will place it in the Repositories.

Again, not a lot of time and effort but just update the old one to current..
